**SUBMISSION DEADLINE**

**August 1, 2024 at 11:59 p.m. (Pacific)** – Abstracts must be complete and submitted by this date; no new submissions or edits will be accepted after this deadline. ASHP will not edit abstracts. Incomplete abstracts will be deleted from the system after this deadline.

**Note:** Encore presentations are permissible.

**POSTER ABSTRACT SUBMISSION TYPES**

**Poster abstracts are classified as one the following:**

- **D = Descriptive Reports:** Describes new, improved, or innovative roles or services in pharmacy practice, or unusual clinical cases in one or a few patients that have not been formally evaluated and are of such importance that they must be brought to the attention of practitioners. Descriptive reports must contain detailed rationale of the project or case, and the importance of the report to pharmacy practice.

- **E = Evaluative Study:** Describes original research, including clinical research on drug effects in humans, drug-use evaluations, and evaluations of innovative pharmacy services. Evaluative study reports must include scientific results and/or data to support the conclusions and indicate that all clinical research represented in the abstract was approved by the appropriate ethics committee or institutional review board and, if appropriate, informed consent was obtained for all subjects.

- **Research-in-Progress:** All submitters/primary presenters—Resident, Fellow, and Student—may select the research-in-progress submission type if you only have a purpose and methods in your abstract. Research-in-Progress abstracts describe
projects or clinical studies that are being planned. Results or preliminary results can be presented on your poster at the meeting. Your poster presentation is an ideal time for you to ask questions or get feedback from others on your project/clinical study still in progress.

- **C = Case Reports**: Describes an unusual patient-specific case that was not part of a study, and the findings are of interest to clinical pharmacists. Case Reports do not need the headings Purpose, Methods, Results, or Conclusions.
